

# Welcome...to One North!

## Mars Hill Media Advancing Your Visual Footprint.

**One North Digital Media** offers churches, Christian organizations, Christian musicians, and Christian owned businesses an opportunity to develop a visual digital presence in the marketplace of your ministry outreach, or your business service area.

**One North Digital Media** offers professionally produced videos paralleling those produced by others at inflated fees in a highly competitive media climate.

**One North Digital Media** helps to guide you through all production stages by an attentive staff, resulting in a product carefully tailored to meet your needs.

Thank you for considering One North Digital Media for your distinctive media project.

In Digital Media ministry for God's glory,

*The Mars Hill Network One North Media Team*

The Mars Hill Network One North Digital Media offers three distinct levels of audio/video service to help your ministry/organization:

- 1. Post Production Service** - *client provides One North digital material for editing and the development of a finished production.*
- 2. In House Production** - *The digital production is produced in the One North Studio from start to finish.*
- 3. Field Production** - *Mars Hill staff will go on-site to record the production. Final product is produced at the One North Studio.*

At every level, One North Digital Media will assist you in developing your storyboard. It is expected that the client will provide an outline of what message is to be communicated throughout the production segments. Clients will also be responsible for submitting a script for the production.

Contact Mars Hill to discuss production fees for each of the 3 production levels.

Not-for profit organizations will receive special consideration in pricing.
